INETICO selected as SBOY finalist!

Symphony of Small Business Success
2010 Small Business of the Year Awards

**INETICO is proud to have been selected as a finalist for the Tampa
Chamber of Commerce
2010 Small Business of the Year Award**

We are honored to be recognized along side the other great local companies who have been nominated for this award. Each of these organizations strived to not only create a unique business model and become the employer of choice within the Tampa Bay area, but also to make a positive impact within their industries and communities.

Being nominated for this award speaks volumes about the quality and integrity of these companies. As INETICO has moved through the stages of Nomination, Semi-Finalist and now Finalist, the recognition reaffirms the commitment we have to our industry, employees, clients and community.

Congratulations to the finalists, and to all the small businesses in Tampa and throughout the country who strive each and every day to make a positive and lasting impression in this world.
